

About nOps:

nOps is an automated FinOps platform. Our customers can benefit in two key ways: First, pay less for what you use without the financial risk. Second, nOps enables you to use less by automatically pausing idle resources.

ShareSave: Save up to 50% on auto-pilot.

 Cost Allocation Chargebacks, Showbacks, Tagging	 Cost Visibility Dashboards, Custom Reports, Recommendations	 Commitment Management No-Risk / No-Commitment EC2 & RDS Reserved Instances	 nKS Karpenter solution to schedule Spot resources on EKS	 nSwitch Automatically Pause Idle Resources	 Databricks Optimize your data and analytics workloads and save up to 50% on autopilot.
 nSwitch Essentials Automatically optimize your EBS storage and save up to 20% immediately!	 AWS Cloud Migration Maximize MAP Funding, Automatically Tag Resources, Track Credits	 Well-Architected Reviews Automated WAR Findings & Report for AWS Well-Architected Pillars	 Cloud Backlog Centralized Workflow & Collaboration Platform	 Auto-Scaling Group Select diverse, cost-efficient nodes and add spot reliably with one click	

Time to Value: 30 Min. Zero risk.

 Risk-free, buy-back guarantee	 Zero engineering effort	 Immediate cost savings	 24/7 continuous cost optimization	 Shared savings pricing model	 30-minute onboarding process
